

Meet my friend, Jared Glimp. Jared is 10 years old and lives in Bixby. In September 2007, Jared was told that he had cancer (Burkitt's Lymphoma). Normally this kind of cancer is cured by chemotherapy. But Jared's did not go away, so he had to undergo all the worst kind of treatments, including a bone marrow transplant. So far, with God's blessings, my friend Jared is in remission. However, after all of this, Jared's family found themselves broke, because it was either save Jared or their house. Heart4Heart and the Congress of Kids are raising money to help Jared's family because of all of the treatments, and doctors, and travel to the St. Louis Children's Hospital, so that he would live. Please help us help Jared by donating to Heart4Heart. Should you wish verification please contact Pastor Phil Sallee at New Beginnings Church - 366-6700.

God bless you,
Johnny Crater
